Phone  
**+46 70 623 05 80**

Motivated IT professional with a strong interest in technology, systems, and problem-solving. Skilled in adapting to new tools and environments, with a proactive mindset toward learning and continuous improvement. Focused on delivering reliable technical support and contributing effectively to IT projects and workflows.

## Work Experience

### Systems Consultant

Compose IT, 2022 - 2026

Responsible for analyzing, implementing, and supporting IT systems to meet business requirements while improving performance and reliability, with a strong emphasis on security monitoring and observability using the Elastic Stack (ELK).

### IT Administrator

Region Gävleborg, 2021 - 2022

Supported COVID-19 vaccination operations by managing registration systems, ensuring accurate data entry, and maintaining reliable digital workflows to support healthcare staff and patient processing.

### Automation Engineer

Gaming for Good, 2020 - 2021

Built Python-based test automation for a Unity mobile game with blockchain integrations, improving release stability and reducing manual QA effort. Developed GitLab CI/CD pipelines and Node.js automation tools integrating Slack, Trello, and GitLab to streamline workflows and enhance team collaboration.

## Side Projects

Regularly building IT projects, POCs and studying cybersecurity through Hack The Box (HTB) labs, focusing on practical development and security skills; progress is available on my [Linktree](#).

## Education

### Technology Program with IT orientation

Polhemskolan 2013 - 2017

### Primary Education

Åbyggeby and Stigslunds Skola

### Driver's License

Gävle, 2017
